Growth adds four shared Ara onboarding hours (workshop and guided practice) and two shared support hours per month. Allowances are estimates at $55/hour, not unlimited support or measured demand.

CUSTOM PROGRAMME / SEPARATE QUOTE

Adapt the plan, group size, duration or delivery to your community. Final scope and price require agreement. Country setup, payment integration, additional delivery, processing fees, Araflo transaction fees and taxes are separate. Nigeria requires confirmed payment eligibility and a local setup quote.

RECOGNITION, REPORTING AND TRUST

Agreed sponsor recognition, monthly aggregate progress and a final report. No guaranteed bookings or revenue. No code access, ownership or merchant/client data is included. Continued paid access needs the merchant's agreement. Araflo began with the founder's own Araheals Holistic Healing practice; this is not an independent endorsement.
